

IMPORTANT, PLEASE READ

6FS Top Swivel 2:1

Work Load: ~ 6.000 Kg, Break Load ~2 x MWL

Fully sealed steel roller bearings

DSK 75/78 Loops, Hard anodized Hi Tensile Aluminum Bodies

- Make sure mating holes are rounded and free of burrs and sharp edges.
- Recoat black UV coating periodically to prevent UV damage for long life.
- Reduce load to approx ½ MWL for best furling.
